01 | My Body

Date
C.W. 8/4/25

Warm-up 7E Elicit

Ishan is writing a poem about his visit to a park. Help him complete the poem.

I love the red rose, I smell it with the help of my nose (nose/toes).

The Sun shines so bright and nice, I see it with the help of my eyes (eyes/ice).

A bird is chirping near, I hear it with the help of my ear (ear/fear).

Going to the park is fun, because my legs help me to jump, skip and bun (run/bun).

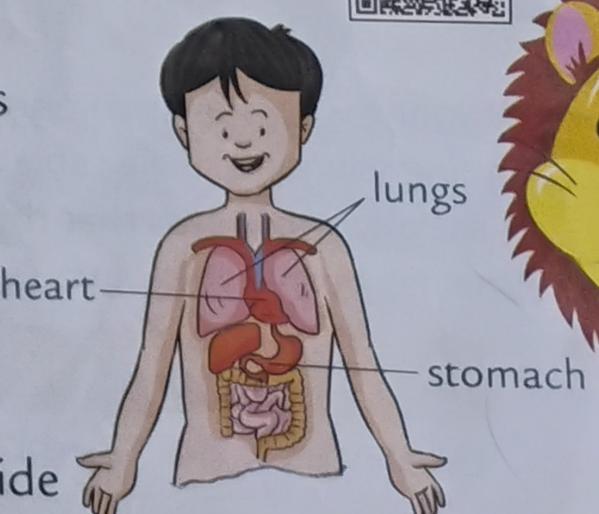

PARTS OF OUR BODY

Different parts of our body help us to do different things. A part of the body that plays a specific role is called an organ, such as the heart, brain and skin. Parts of our body, such as the eyes, nose, ears and skin, that can be seen from the outside are called external organs.

Parts of our body, such as the heart, lungs, brain and stomach, that are inside the body are called internal organs.

SVID

Parts of our body

EXTERNAL ORGANS

Our sense organs and limbs are external parts of our body.

SENSE ORGANS

Parts of our body that help us to feel the things around us are called sense organs. Eyes, ears, nose, tongue and skin are our sense organs.

Eyes help us to see.

Ears help us to hear.

Tongue helps us to taste. It also helps us in speaking.

Nose helps us to smell things.

Skin helps us to touch and feel the things around us.

Fact Corner

7E Extend

Skin is the largest organ in our body.

Subject Connect | English

21st Century Skills
Critical thinking

Rhyming words are two or more words that have the same or similar ending sound. Make a table and write the names of sense organs. Write any two words that rhyme with the name of each sense organ. One has been done for you.

Sense organ

Rhyming words

Eyes

Rise, prize

TAKING CARE OF SENSE ORGANS

Life Skills

Personal: Self-awareness

Splash your eyes with clean water regularly. Avoid touching and rubbing your eyes. Keep sharp and pointed objects away from your eyes.

Eyes

Ears

Nose

Tongue

Skin

Do not put anything into your nose.

Wash your hands with soap and water before and after using the toilet. Wash your hands with soap and water before and after having meals. Have a bath every day to keep your skin clean.

Do not put anything into your ears. Avoid listening to loud music.

Clean your tongue regularly when you brush your teeth.

LIMBS

Arms and legs are called limbs. We have two pairs of limbs. Arms are the upper limbs and legs are the lower limbs.

INTERNAL ORGANS

Let us learn about some internal organs and their functions. The brain is an internal organ present inside the head. It controls everything we do. It helps us to do various things, such as think and speak.

Place your right palm on your chest slightly to the left. Do you feel a soft thumping movement? It is your heartbeat. The heart pumps blood inside our body.

The stomach is an internal organ that helps in digestion. The process by which food is broken down into smaller forms so that it can be easily absorbed by our body is called digestion.

blood • a substance that flows in our body to transport some substances

Quick Connect 7E Evaluate

Match the following.

1. Pumps blood
2. Helps us to touch and feel things
3. Helps us to think

- a. skin
- b. brain
- c. heart

INT

**Activity Corner**

Life Skills

Interpersonal: Communication

Make groups of five. Each group will discuss all the five sense organs. Each member can talk about a particular sense organ.

Keywords

7E Explain

External organs • Organs that can be seen from the outside are called external organs.

Internal organs • Organs that are present inside our body are called internal organs.

Sense organs • Parts of our body that help us to observe and feel the things around us are called sense organs.

Wrap-up

7E Engage

Parts of our body

Sense organs:
eyes, ears, nose,
tongue and skin

Limbs: upper
limbs and lower
limbs

Internal organs:
brain, heart,
stomach

EXERCISES

7E Evaluate

INT

**A. Choose the correct options.**

1. I hear the bell ringing with my ears.
a. nose b. eyes c. ears d. heart
2. I use my tongue to taste food.
a. lungs b. heart c. stomach d. tongue

B. Match the following.

- | | |
|-------------------|--------------------|
| 1. Arms, legs | a. sense organs |
| 2. Eyes, tongue | b. internal organs |
| 3. Heart, stomach | c. limbs |

**C. Answer the following questions.**

1. Name any two external organs.
2. Name any two internal organs.

10/4/28
Sapna

Wear Your Thinking Cap!

Life Skills

Cognitive: Problem-solving

Name the organ that will help you do each of the following things.

1. To watch television
2. To smell a pizza

Things to Do

21st Century Skills

Creativity

On a chart paper, draw and label the parts of the body that you have learned in this chapter.

Life Skills and Values

Value Education

Empathy

In your notebook, list some ways in which you can help elderly people around you.

24-4-25

02 | Being Healthy

Warm-up 7E Elicit

Circle the things Yasmin can buy to keep herself clean.

We must stay clean and eat different kinds of food in the right amount to keep ourselves healthy and fit.

KEEPING CLEAN

- Brush your teeth twice a day.
- Have a bath every day with soap and water. Use a clean and dry towel to wipe your body after having a bath.
- Wear clean clothes.
- Ask a grown-up to clip your nails regularly with a nail clipper.
- Shampoo your hair regularly and comb your hair every day.
- Wash your hands with soap and water after using the toilet.

VID

GOOD EATING HABITS

- Wash your hands before and after eating.
- Eat well-cooked food.
- Eat and drink from clean plates and glasses.
- Eat fresh food. Eating stale food can make you fall ill.
- Do not eat food that has been kept uncovered. It may have germs that can make you fall ill.
- Rinse your mouth after eating.
- Chew your food well.
- Eat meals at regular intervals.
- Do not waste food.

STAYING FIT

ANM

Proper rest and exercise keep us fit. Walking, jogging, running, skipping, swimming, dancing and doing yoga are some forms of exercise. We must rest after work and play. Sleeping for about seven to eight hours every night gives us rest and makes us feel fresh.

Different forms of exercise

Playing games

Playing games is also a form of exercise. Games played in an open space, such as a park or a playground, are called outdoor games. For example, cricket and football are outdoor games. Games usually played inside a room or a closed area are called indoor games. For example, ludo and carrom are indoor games.

Quick Connect

7E Evaluate

28-4-25

(INT)

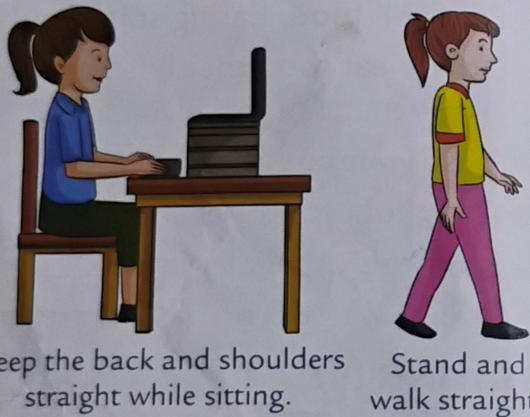

Fill in the blanks.

- Games usually played inside a room or a closed area are called indoor (indoor/outdoor) games.
- Cricket is an example of an outdoor (outdoor/indoor) game.

POSTURE

The way in which someone holds his or her body while standing, sitting or walking is called posture. A good posture keeps our body in proper shape.

Keep the back and shoulders straight while sitting.

Stand and walk straight.

Activity Corner

Life Skills

Personal: Self-awareness

Make a table in your notebook. Write some things about your favourite games. One has been done for you.

Name of the game	Number of players in the game	Things needed for the game	An important rule of the game
1. Hopscotch	Any number	Open space, a piece of chalk, a small piece of flat stone	Players take turns to play.

Keyword

7E Explain

Posture • The way in which someone holds his or her body while standing, sitting or walking is called posture.

Wrap-up

7E Engage

Keep clean

Maintain good posture

Being healthy

Eat healthy food

Take proper rest

Stay fit

28-4-25

EXERCISES

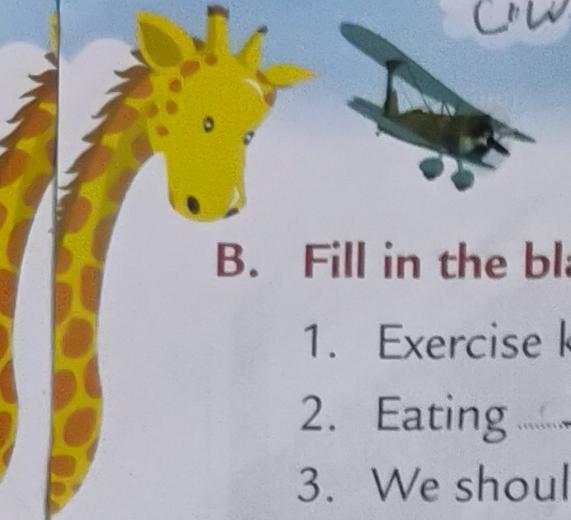

7E Evaluate

A. Choose the correct options.

- Which of the following games is an outdoor game?
 a. Football b. Ludo c. Carrom d. Chess
- The way in which someone holds his or her body while standing, sitting or walking is called Posture.
 a. posture b. game c. exercise d. sleep

(INT)

28.4.25

INT

B. Fill in the blanks.

1. Exercise keeps us Fit.
2. Eating Stale food can make us fall ill.
3. We should stand straight.

C. Match the following.

- | | |
|--------------------------|-----------------------------------|
| 1. Wearing clean clothes | a. gives proper shape to our body |
| 2. Walking, jogging | b. forms of exercise |
| 3. Good posture | c. good habit |

D. Answer the following questions.

1. Name one good habit we can follow to keep clean.
2. Name two indoor games.
3. Name two forms of exercise.

Things to Do

Life Skills

Personal: Self-awareness

As a class activity, walk for 10 minutes. Next, jog for 5 minutes. Now, discuss the following questions in your class.

1. Did you sweat after walking and jogging?
2. When did you sweat more—after walking or after jogging?

Life Skills and Values

Life Skills

Cognitive: Critical thinking

Look at the pictures given here. Think and discuss which of the two ways is better to cover our mouth while sneezing.
